

Guide to the holiday with a dog

Our hotel can accommodate pets, with a regular health card and in compliance with the necessary vaccinations.

There is a fenced dog exercise area available, near the outdoor pool. Their stay is subject to a supplement of euro 35,00 per room per day and it is subject to the most scrupulous respect to the rules below:

It is absolutely forbidden to bring the dog at the pool, in the internal areas of the hotel, in the SPA and in the bar/restaurant areas.

They must always be kept on a leash.

They can stay under the umbrella on our private beach, but according to the Mayor's Order No. 50 dated 04/28/2017, from June 15 to September 15, they cannot enter the water.

They must be accompanied outside the hotel manure and the excrement must be removed with the appropriate tools.

In case the dog dirty the room or elsewhere, the owner is required to clean.

The dog must be kept clean always, especially before entering the room, so that the cleaning at the end of the stay will not be difficult.

The hotel provides a bed/pillow and a bowl per dog; it does not provide meals or toys.

We ask owners not to leave the dog alone in the room for long time to avoid prolonged barking that may disturb guests.

It is forbidden to allow the dog on the bed, the sofa, the chairs, etc... and the use of bed/bath linen for the care of the animal is not permitted.

Any damages caused by the dog are the sole responsibility of the owner.

Upon arrival at the hotel, please arrange with the Reception the timings for the morning cleaning and the evening check-up of the room, to be carried out without the dog in the room.

Beaches for dogs

in Marina di Castagneto Carducci: beach LOC. SEGGIO, 800/900 mt. from the hotel
